

Radius Search

for Microsoft Dynamics 365 Business Central

EN

Imagine you are planning your next customer appointment and want to automatically see which of your prospects, customers, suppliers or partners is located in the immediate vicinity.

Short distances, great proximity - If you are already close anyway, visit your existing customers at the same time!

The "Radius Search" app based on Microsoft Dynamics 365 Business Central shows you prospects, customers, suppliers and partners in a clear map display in Business Central. This allows you to optimally plan and implement the routes to your business appointments.

Your Benefits

- Make full use of your resource and time management
- Plan your business appointments optimally
- Improve your customer service through fast route planning
- Use "neighborhood contacts" for your advantage

The mobile version of Business Central supports you on the go with a consistent, modern user interface under Windows, Android or iOS devices.

With the KUMAVISION "Radius Search" app, you can plan your business trips easily and conveniently and make optimal use of the proximity to your business contacts.
